

COVID-19 TESTING

USNH Naples is authorized to provide COVID-19 testing for individuals on PCS and official travel orders only. See inside for further instructions. Individuals may contact the response teams in this brochure or check with their departing airport on testing capabilities.

All official travel requires a negative COVID - 19 test 1-3 days prior to travel. Please notify the appropriate POC as soon as possible to minimize delays in processing this request.

Traveling to the US?

Starting on Jan 26, 2021, the CDC requires all commercial air passengers age 2 years and older, arriving to the US from a foreign country to get tested for COVID-19 not more than 3 days before flight departure. Negative results or documentation from your doctor must be provided stating that you have recovered from COVID-19. These requirements must be provided to the airline before boarding your flight. Testing can be antigen or molecular test.

If traveling on the Patriot Express (aka The Rotator) to the US, a COVID - 19 test is required prior to your flight in accordance with the CDC & EUCOM Guidance. Testing is required for travel to, or through Italy or Spain.

Think you have COVID-19?

Contact your PCM via the

Appointment Line

+39 081-811-6000

OR

Go to the Emergency Department for emergency treatment.

As COVID-19 guidelines change,
printed information may also change.
